Survey Response

Personal Information	
First Name	XXX
Last Name	XXX
Student Number	XXX
Your email address	<u>name@company.com</u>
Faculty	Applied Science
Year of Study	X
What is the name of the conference?	XXX conference 2018
Where is the conference taking place?	XXX
Please describe the conference that you would like to attend and why	XXX Conference is an opportunity for motivated young women and university students to come together to learn about leadership and empowerment. I would like to attend because it would allow me to grow personally and professionally as a woman in a male dominated field. As an engineering student and a woman of colour I recognize my opportunities are limited compared to my peers, and I feel this conference will equip me with the resources and inspiration necessary for to be a progressive leader in the engineering field.
Are you presenting at this conference?	No

If Yes, please tell us about your presentation

Please tell us how attending this conference impacts 2 of the Three Pillars of Tuum Est: Student Success (looking within and beyond the classroom for unique opportunities to learn, to lead, and to develop new strengths), Program Connection (how students within the same academic program develop a sense of belonging and connectedness to their faculty, their peers, and their field of study), and Campus Engagement (the positive connection between our students and the Okanagan campus and our campus community)

Student Success: This will be a chance to connect with and be inspired by remarkable leaders from various industry sectors, not just engineering. In this way I get to build an interdisciplinary network that embraces the diversity of women in various fields. I know that personally that this will help me see what I can achieve in my field and that I can create change in the landscape of engineering. In the past I have attended engineering conference and many don't place any emphasis on diversity, so this conference which has a specific focus on diversity, allowing me to become educated in this area and then better educate my peers. Program Connection: Delegates will be from Universities across Canada, giving me insight into other women's university experiences. I believe this will allow me to bring that back knowledge to my campus connections (Engineers Without Borders and Equity Ambassadors) I will be able to tailor programs for female empowerment on our campus.

Your budget is very a very important part of the application process. Please submit your request for conference funding by telling us what funding you require for. You may upload your budget document for our review.

Have you received Tuum Est funding in the past to attend this conference? Yes

Conference Timeline and Budget

When is the conference? Friday, March 16, 2018

Upload your completed budget document in a .xlsx or .docx format. Please be as detailed as possible in your budget. [Open this attachment](#)

Total funding requested up to a maximum of \$500.00 (include details of additional sources of funding in your budget document) 500
