Exploring human and physical landscapes and their interconnections on the surface of the Earth. Geography concerns spatial or areal patterns, relationships, and processes on Earth's surface with a focus on culture, space and society, urban environments, natural places, geospatial information and environmental studies. Studying geography allows for a holistic or “big picture” view of complex human-environmental problems.

Connect your experiences
Whether you're new-to-UBCO or nearing graduation, reflect on the questions below to help connect your values, interests, and education to your future career or personal goals. Practicing reflection can help deepen your learning, strengthen your connections, and encourage life-long learning. These reflection questions are meant to help you build a UBC Okanagan experience that is unique to you.

- What are you hoping to learn as you progress through your degree?
- What kind of career are you interested in after completing your degree?
- How will the skills and knowledge you acquire during your studies help you in your career after graduation?
- What relationships and experiences are you hoping to gain from your time at university?

Use the Program Plan regularly throughout your time at UBC to build an experience that is fulfilling and rewarding.
